

REMARKS

In accordance with the foregoing, the specification and claims 1, 2, 6, 9, 10, 11, 18, and 19 have been amended. Claims 1-23 are pending and under consideration.

In claims 1, 2, 6, 9, 10, 11, 18, and 19, the term "distributing" is changed to –distribution– to improve form. It is respectfully submitted that changing "distributing" to –distribution– does not change the scope of these claims.

Objection to the Drawings

The Office Action objected to the drawings under 37 C.F.R. §1.83(a), because the drawings do not show every feature in claim 6. Claim 6 is amended to obviate this objection. The specification, such as paragraph [0070], provides support for these amendments to claim 6. Accordingly, withdrawal of this objection is respectfully requested.

Figure 6 is also amended as shown in the attached annotated sheet. The changes to Figure 6 are supported by at least paragraph [0076] of the specification.

Objection to the Specification

Applicant amends paragraph [0044] as suggested in item 3 of the Office Action. Accordingly, withdrawal of this objection is respectfully requested.

Objection to Claim 1

Applicant amends claim 1 as suggested in item 4 of the Office Action. Accordingly, withdrawal of the objection to claim 1 is respectfully requested.

Summary

Claims 1-23 are pending and under consideration. It is respectfully submitted that none of the references taken alone or in combination disclose the present claimed invention.

There being no further outstanding objections or rejections, it is submitted that the application is in condition for allowance. An early action to that effect is courteously solicited.

Finally, if there are any formal matters remaining after this response, the Examiner is requested to telephone the undersigned to attend to these matters.
